

Descriptions:

Product description and application
 This diamond saw blade is designed for cutting hard materials such as granite, marble, limestone, etc. It is suitable for use in various types of saws, including hand-held saws, table saws, and circular saws. The blade is made of high-quality diamond-impregnated metal, which provides excellent cutting performance and long service life. It is available in various sizes and thicknesses to meet different requirements.

Application
 This diamond saw blade is suitable for cutting various hard materials such as granite, marble, limestone, etc. It is widely used in construction, mining, and industrial fields.

Applicable materials
 Granite, marble, limestone, etc.

Advantages
 1. High cutting efficiency
 2. Long service life
 3. Low noise and vibration

Low cost & generally delivery by express (DHL to Doha)

 By Air / Sea for bulk goods, Airport / Port receiving

Service
 1. Free quotation and technical support
 2. Free shipping (DHL) for small quantities
 3. Free technical support and training
 4. Free inspection and quality control
 5. Free after-sales service

FAQ
 Q1: How long does it take to receive the goods?
 A: It depends on the shipping method and the destination. Generally, it takes 3-7 days by air and 7-15 days by sea.
