

specification:

300MM 12 inch Bush Hammer Grinding Plate with Vacuum Brazed Wheel for Stone Sandblasting Surface

We can sell the roller separately, and we have plenty of styles and specifications for the roller starts form 125mm to 700mm. And the pins of roller can be customized as well.

normal size **12 inch Bush Hammer Plate for Stone Sandblasting:**

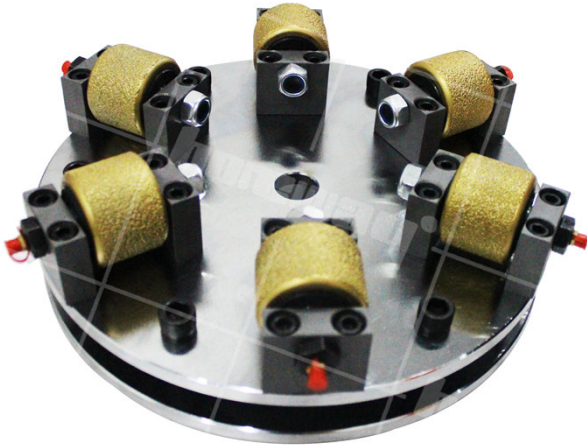

size	Roller number	Layer number	Working Condition	Material
300MM	6 rolls	Double layer	Wet	Tungsten carbide + alloy

Specially designed tools can be used in any standard application. We can customize tools according to your exact needs.

Feature:

1. Durable metal and diamond compound.
2. Competitive price and superior quality.
3. Different granularities and sizes as requested for the diamond roller.
4. Effective for grinding natural stones and concrete to get bush hammer ffect.

Introduction:

12 inch Bush Hammer Plate for Stone Sandblasting is used sophisticated welding technology and selecting high quality aluminum alloy to casting, bushhammered's grit can be changed through the adjustment of spring elasticity on bush hammer, manual grinding machine press. Both enlarging spring's interval to reduce spring elasticity and reducing machine's press can enhance bush hammer vibration to make bush hammered face rough.

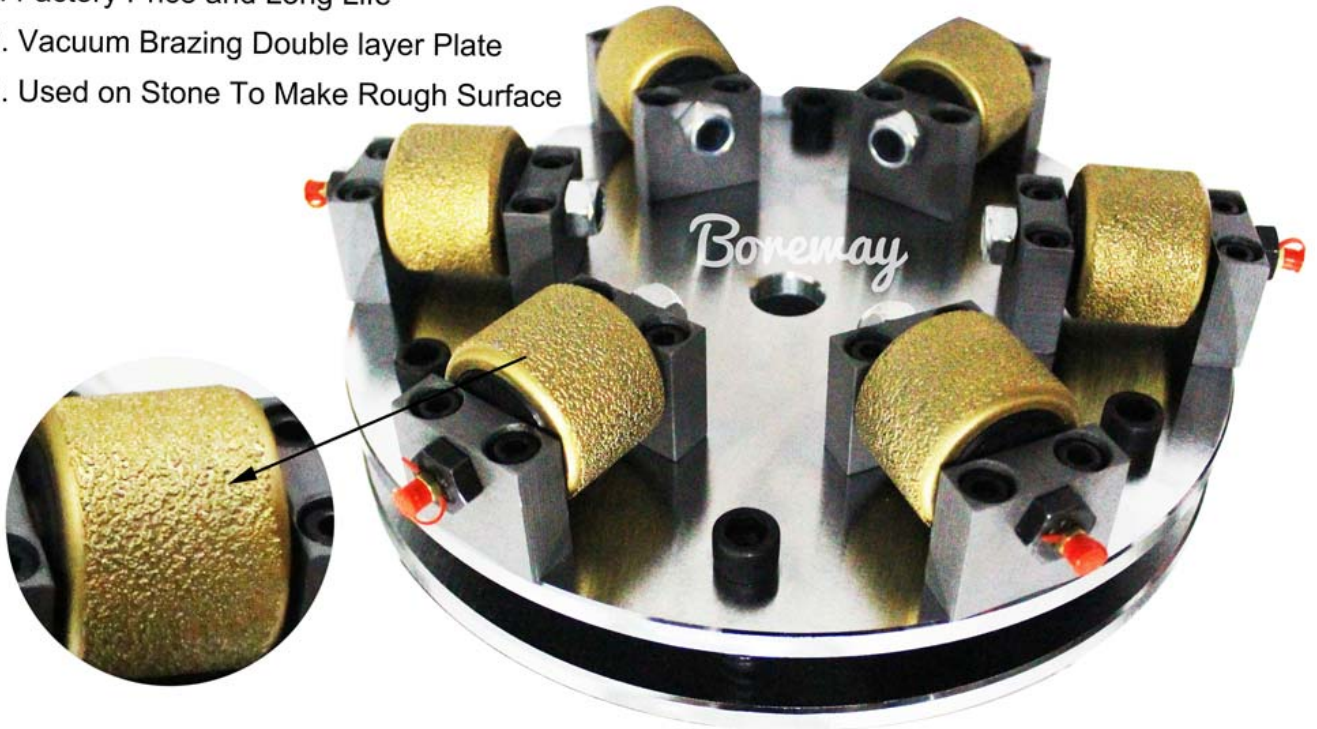

Widely used on granite, marble sandstone to make rough surface

Product Details:

12 inch Bush Hammer Plate for Stone Sandblasting

Advantage:

1. Factory Price and Long Life
2. Vacuum Brazing Double layer Plate
3. Used on Stone To Make Rough Surface

Applicable machine:

12 inch Bush Hammer Plate for Stone Sandblasting for Radial Arm Polishing Machine, Angle Grinder.

about us:

our service:

1. Minimum order quantity: It can meet your trial order requirements well.
