

Introduction:

Low cost high quality diamond saw welding machine -- diameter of welding saw blade: 240~900 mm. Cylinder clamping saw blade base to ensure welding accuracy. Cylinder clamping, ensure that the stress of the matrix welding process is not damaged. In addition, the kind of welding frame can be used for welding gang saw blade after specially modification. Compared with similar welding machine with a high level of automation, positioning accuracy, stability, and long service life. This series of products using user-friendly design, general workers can operate on the machine.

Feature:

1. High efficiency and accuracy, low energy consumption.
2. Can be used for welding gang saw blade after specially modification.
3. Compact structure, purchasing accessories easily, most of the wearing parts can be found in the pneumatic tools shop in your side, rather than relying on the service agents.

Specification:

Specification of 240mm - 900mm Low cost high quality diamond saw blade welding machine:

Model No: BWM-HJ08	
Welding Range	Φ240mm - 900mm(Max 1400mm)
Verticality	≤± 0.3mm
Parallelism	≤± 0.3mm
Welding Rate	4-20 PCS/Min
Air Pressure	0.3 - 0.6Mpa
Water Pressure	≥ 0.2Mpa
Voltage	220V (Single-phase)50Hz
Power(From LED Light)	1.0W
Water Consumption	1.5 - 2m³/h
Machine Dimensions	L940*W440*H1440mm
Equipment Weight	85Kg
Package Dimensions	L1600*W520*H550(Horizontally)
Package Weight(Wooden Package)	115Kg

Note :This machine doesn't include high frequency Welding machine , air compressor and water pump.
