

## Introduction:

30mm Diamond Core Drilling Bits mainly used for drilling Porcelain Tile, Ceramic Tile, Marble, Granite ,Rebar Concrete and other hard material.Ideal for drilling the faucet mounting holes in stone counter tops, plumbing lines in showers, and vanities.They are designed with premium diamond for superior coring performance and long life and are typically used dry on hand drills and core drilling machine.

## Feature:

- 1.Excellent cutting speed;
- 2.Good sintering offer high efficiency drilling;
- 3.Paints on the body of this bit to avoid getting rusty;
- 4.Small incision resistance,feature drilling stably, fast speed, not breaking the border.

## Specification:

The following are the specification of 30mm Diamond Drilling Bits For Ceramic Tile Marble Stone:

Model No.	Diameter	Adaptor	Length	Usage	Welding Method
BW-DDB	30mm	5/8"-11	105mm	Dry use	Laser

The parameters only for reference,other specifications are available upon request
