

Introduction:

Diamond core bits are available in premium and supreme qualities for drilling of concrete, field stone and other materials. These diamond core bits are designed with premium diamond for superior coring performance and long life and are typically used dry on hand drills and core drilling machine. Core bits are specifically designed to tackle a variety of soft brick and concrete block drilling operations.

Features:

- 1.Excellent cutting speed.
- 2.Good sintering offer high efficiency drilling.

Specifications:

Diamond Boart Dry Cutting Core Bits

Code No.	Diameter	Segment Size	Usage	Pipe Length	Welding Method	Adaptor
BW-DDB-S04	20mm (3/4")	12x3x10	Dry	85-200mm	Silver Welding Laser Welding High Frequency	5/8"-11 M14 1/2" Gas
	22mm (7/8")	12x3x10				
	25mm (1")	12x3x10				
	29mm (1-1/8")	12x3x10				
	32mm (1-1/4")	16x3x10				
	35mm (1-3/8")	16x3x10				
	38mm (1-1/2")	16x3x10				
	42mm (1-5/8")	16x3x10				
	45mm (1-3/4")	16x3x10				
	50/51mm (2")	16x3x10				
	57mm (2-1/4")	22x3.5x10				
	60mm (2-3/8")	22x3.5x10				
	63mm (2-1/2")	22x3.5x10				
	70mm (2-3/4")	22x3.5x10				
	76mm (3")	22x3.5x10				
	80mm (3-1/8")	22x3.5x10				
	89mm (3-1/2")	22x3.5x10				
	102mm (4")	22x3.5x10				
110mm (4-3/8")	22x3.5x10					
127mm (5")	24x4x10
