

Descriptions:

350mm Arix Matrix Shape Diamond Segment for Granite Slab Cutting:

boreway®

The characteristics of a single grain size of diamond and wide horizontal spacing can improve the sharpness of blades, and ensure that the blade is suitable for cutting granite of different hardness degrees.

Diamond Segment for Granite Slab Cutting, diamond longitudinal arrangement is interlaced, which can ensure the continuous diamond exposure and stable cutting.

Such **Diamond Segment for Granite Slab Cutting** are highest ratio of performance to price! ([Granite Block Diamond Segment Manufacturer](#))

Specifications:

We are instrumental in providing to our valuable customers excellent quality **Diamond Segment Granite Slab Cutting** which are available with following specification:

300-600mm Granite Edge Cutting Segment

Diameter		Segment Size			No.of teeth
Inch	mm	length	Thickness	Height	Number
12	300	40	3.0	20	21
14	350	40	3.2	20	24
16	400	40	3.6	20	28
18	450	40	3.8	20	32
20	500	40	4.2	20	36
24	600	40	4.6	20	42

Besides 350mm Arix Matrix Shape **Diamond Segment for Granite Slab Cutting**, All of our products have been strictly tested before access to market. Other specifications can be customized according to requirements. [China Arix Diamond Segment On Sale Manufacturer](#))

Product Details:

350mm Arix Matrix Shape Diamond Segment for Granite Slab Cutting:

Diamond longitudinal arrangement is interlaced, ensure the continuous diamond exposure and stable cutting

Applications:

350mm Arix Matrix Shape Diamond Segment for Granite Slab Cutting, Diamond

segment for slab edge cutting of Granite, Sandstone, various hard stone with quartz.

Applicable materials

To meet your demands for cutting different materials, such as granite, marble, quartz stone, sand stone, microcrystalline stone, volcanic rock, concrete, glass, ceramic, masonry etc. Different segments recipe were been developed by our company.

Cutting Effect:

Advantages:

1. Ideal edge trimming quality best .
2. Excellent comprehensive cutting performance.
3. High cutting efficiency, meanwhile, it has a long lifespan.

About us:

We have a strict quality control system□

Packing & Delivery:

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1. If we want to buy diamond segment, how could we know the quality?

You can buy diamond segment with a small quantity first, test the quality and our service, it will be much better for our long term cooperation. For small quantity, you don't need to take risk in case the quality doesn't fit your market.

2. What could we do if we find your diamond segment are not in good performance?

Please tell us the detailed information of the cutting, for example:

- 1). The RPM of the machine, the cutting object.
- 2). The detail picture of diamond segment after use, e.g. the cutting side of diamond segment.
- 3). Do you feed enough cooling water.

3. What is the delivery way?

Express Courier Service, Sea Cargo and so on. We give the advice according to actual situation for customers make decision.

Please note:

Please use high frequency silver welded machine instead of fire to make the brazing, the welding time is only a few seconds, otherwise the diamond inside the segments will probably be damaged by the high temperature, then the cutting performance will be reduced!
