

Introduction:

Double row segmented diamond grinding cup wheels are for grinding and polishing concrete products, masonry material and all types of natural stone with maximum stock removal and free cutting action for wet or dry application. It contains a higher diamond count and feature venting holes for fast, rough, dry or water-cooling grinding with long wheel life.

Features:

1. Double row segmented design can provide fast beveling shaping.
2. Applicable for most angle grinders.
3. Good balance and stable performance.
4. High efficiency and longer lifespan.

Specifications:

The followings are the normal specifications of our double row segmented diamond cup wheels:

Product Name	Diameter	Connection	Segment Height	Grit
Double Row Diamond Cup Grinding Wheel	4" 105mm	5/8"-11 20mm 22.23mm M14 Snail Lock	5-10 mm	Rough (6# 16# 30#) Medium(60#) Smooth(120#)
	4.5" 114mm		5-10 mm	
	5" 125mm		5-10 mm	
	6" 150mm		5-10 mm
