

Introduction:

Dry use construction diamond core drill bits are suitable for stand drilling machine, electrical hand-held drillers for dry drilling concrete, masonry, brick with light or medium steel reinforcing.

The special vents help keeping the bit cool and provide fast removal of cutting debris.

Features:

1. Applicable for most stand drilling machines, hand-held drillers.
2. These drill bits are mainly for dry use.
3. Good balance and stable performance.
4. The special vents help keeping the bit cool and provide fast removal of cutting debris.

Specifications:

The followings are the normal specifications of our dry use construction diamond core drill bit:

Product Name	Diameter	Segment Size	Segment No.	Length	Applications
Dry Use Construction Diamond Core Drill Bit	7/8"(22mm)	17x3.0x7	3	Can be customized	Concrete Brick Masonry
	1"(25mm)	17x3.0x7	3		
	1.18"(29mm)	17x3.0x7	3		
	32mm(1-1/4")	17x3.0x7	3		
	38mm(1-1/2")	17x3.0x7	4		
	50mm(2")	24x3.5x7	3		
	68mm(2-1/2")	24x3.5x7	3		
	75mm(3")	24x3.5x7	4		
	82mm(3-1/2")	24x3.5x7	4		
	100mm(4")	24x4.0x7	5		
	115mm(4-1/2")	24x4.0x7	6		
	125mm(5")	24x4.0x7	6		
	150mm(6")	24x4.0x7	7		
	180mm(7")	24x4.0x7	9		
	200mm(8")	24x4.5x7	9		
230mm(9")	24x4.5x7	10			
250mm(10")	24x4.5x7	11			

The above specifications are for reference, other specifications can be ordered by customers.

Quality: Normal, Good quality, Premium.
