

**Introduction:**

Counter finger

bits are usually use after diamond core drill bits,fast removing dust,diamond sink wheel.

Counter finger bits are ideal for fast stock removal as well as truing up saw lines, which is designed to cut granite, engineered stone and marble,counter tops, kitchen tops and basins.

Counter finger bits are usually mounted on CNC or Radial Arm machines, for hole grinding, anchor and blind hole.

Wet use only.

**Feature:**

- 1.Faster Speed and Lasting longer
2. Less Noise and Low Ampere

**Specifications:**

The following are the normal specifications about the counter finger bits :

| Diameter      | Bore (mm)                | Segment Length | Segment No. |
|---------------|--------------------------|----------------|-------------|
| 20mm (3/4")   | 1/2 Gas<br>(Male Thread) | 40mm           | 4-6pcs      |
| 25mm (1")     |                          | 45mm           |             |
| 30mm (1-1/4") |                          | 50mm           |             |
| 35mm (1-3/8") |                          | 60mm           |             |
| 40mm (1-5/8") |                          |                |             |
| 50mm (2")     |                          |                |             |
| 60mm (2-3/8") |                          |                |             |

The above specifications are for reference, other specifications can be ordered by customers.
