

## Introduction:

- 1.D125x3Tx30sXM10 Concrete Bush Hammer With Alloy Segments is used for grinding the surface of granite, marble, concrete and other materials, grind into a rough surface, It plays the role of anti-skid and also can play the role of decoration;
2. The repeated hit of these carbide tips into stone or concrete surface creates a rough, pockmarked texture that looks like naturally weathered rock;
3. This segments of the bush hammer roller is carbides, each plate has 3 rollers, each roller has 30 segments, this bush hammer plate can be used on hand stone polishing machine machine;
4. It is suggested that the rotational speed is below 700 RPM, bush hammer tool is 5-6 times faster than manual times, the cost is greatly saved;
5. The grit of bush hammer face can be adjusted and the size of adaptor decide to its machine, other specifications can be customized according to requirements.

## Features:

Bush hammer tools usually used in the following aspects:

1. For floor preparation before laying new coatings;
2. To remove old glue and resin coatings, in particular thick resins;
3. For grinding floors, make the ground rough and do antiskid treatment;
4. For grinding floors, can be prepared for the subsequent ground laying materials;
5. For processing stone surface, pockmarked texture that looks like naturally weathered rock.

## Specification:

The normal size of diamond bush hammer wheel:

| Product name      | Outer Diameter |     | Roller quantity | Segment quantity | Connection                            |
|-------------------|----------------|-----|-----------------|------------------|---------------------------------------|
|                   | Inch           | mm  |                 |                  |                                       |
| Bush hammer tools | 5              | 125 | 3               | 30               | M14<br>M16<br>5/8"-11<br>42mm<br>50mm |
|                   | 6              | 150 | 4               | 45               |                                       |
|                   |                |     | 3               | 30               |                                       |
|                   | 8              | 200 | 6               | 45               |                                       |
|                   |                |     | 4               | 30               |                                       |
|                   | 10             | 250 | 8               | 45               |                                       |
|                   |                |     | 5               | 30               |                                       |
|                   |                |     | 10              | 45               |                                       |
|                   | 12             | 300 | 6               | 30               |                                       |
|                   |                |     |                 |                  |                                       |

Other connection and specification can be customized according to need.
