

Introduction:

Resin-filled 5-segment finger bit has a smaller diameter, and five segments designed to cut faster. It has a feed rate of 10" ~ 20"/min and its operating speed is 4500-5500 RPMs. This finger bit has the built-in water channel for central feed water distribution, as do all good quality finger bits. This resin-filled segmented bit is excellent for granite, engineered stone and other hard natural stone while the resin allows it to be used for these materials as well as for onyx or brittle materials. These diamond finger bits are made for high-performance shaping in fabrication applications.

Feature:

1. Faster speed and lasting longer.
2. Ideal for hard materials

Specifications:

Diamond Resin Bonded Router Bit

Thickness	Useful Depth (mm)	Adapter	Segment Type	Segment No.	Strengthen Bottom
20mm (3/4") 22mm(7/8") 25mm(1")	30	5/8"-11 M14 1/2" Gas	Resin Filled	4-6	Optional
	35				
	40				
	45				
	50
