

Product Description:

Brief introduction:

Diamond gang saw blades are one of the most widely and most advanced tools used in cutting stone blocks. The diamond gang saw blades have the characteristics of high processing efficiency, high yield, high cutting accuracy, good surface evenness, high flexibility of plate size, saving water and electricity.

Features:

1. Using ultra high quality diamond powder, after coating titanium, reduce the heat damage.
2. High quality blank ensures smooth and efficient cutting.
3. Ultra vacuum hot pressing sintering technology to ensure the consistency and stability of products.
4. The sandwich structure is more stable in cutting and ensures the thickness, consistency and integrity of the plates.

All of our products have been strictly tested before access to market.
