

Introduction:

Fickert ageing brush is made of silicon carbide abrasive filaments. This brush has a big quantity of filaments and a very good flexibility, getting the specific required results and a high increase of productivity. Since it has a wide range of grains, it is possible to obtain from an opaque finishing to a mirror polishing.

Features:

1. High grinding efficiency.
2. Long lifespan and stable performance.

Specifications:

Fickert Ageing Brush

Product Name	Dimensionmm)	Material	Grit No.	Applications
Fickert Abrasive Brush	140mm 170mm	Silicon Carbide	24# 36# 46# 60# 80# 120# 180# 240# 320# 400# 500# 600# 800# 1000# 1200# 1500#	Ceramic Tiles Granite Marble Artificial Stone

The specifications only for reference, other specifications can be ordered by customers.
