

Product Description:

Brief introduction:

Metal bond diamond fickert abrasive Brad polishing machine mounted on the front, mainly for the granite and other stone large plate board surface, rough grinding tile surface, the mill, with high efficiency, grinding and strong, easy to chipping, long life and other advantages, low energy consumption (30% energy savings, cost savings accordingly) and environmental protection, can be used for processing granite and other hard stone.

Features:

1. The heat resistance and pressure resistance, long life;
2. Polishing uniformity, environmental protection (as compared with ordinary grinding block slight environmental pollution);
3. Easy to use, fast, polished fast, stable quality, high working efficiency, reduce downtime facelift mold time;
4. This product in combination with conventional magnesium oxide silicon carbide grinding block, compared with a high efficiency, saving significant features;
5. Factory direct, affordable, comprehensive and low cost.

**All of our products have been strictly tested before access to market.
Other specifications can be customized according to requirements.**

Specification:

Specification of metal diamond fickert abrasive:

Product name	Length	Segment height	Sink	Grit	Applications
Metal diamond fickert abrasive	130mm	11mm	No sink	30#,46#,60#,80# 100#,120#,140# 180#,240#,340#,400#	Stone ceramic other materials
	140mm	15mm	Narrow sink		
	170mm	20mm	Width sink		

Other specification can be customized according to need.
