

Introduction:

Normal flat segment for stone diamond core drill bits are suitable for drilling kinds of granite and other hard stone, provide smooth and high efficiency drilling.

Features:

1. High quality formula provide higher drilling efficiency.
2. Wet or dry drilling.
3. Long lifespan and stable performance.

Specifications:

The followings are the normal specifications of our normal flat segment for diamond core drill bit:

Product Name	Diameter	Segment Size	Segment No.	Applications
Normal Flat Segment For Diamond Core Drill Bit	1"(25mm)	17/12x3.0x10	4	Granite
	1.18"(30mm)	17/12x3.0x10	4	
	1.25"(32mm)	16x3.0x10	4	Other Hard Stone
	1.38"(35mm)	16x3.0x10	4	
	1.50"(38mm)	16x3.0x10	5	
	1.63"(42mm)	16x3.0x10	5	
	1.75"(45mm)	16x3.0x10	6	
	1.88"(48mm)	16x3.0x10	6	
	2"(52mm)	16x3.0x10	7	
	2.25"(57mm)	22x3.5x10	5	
	2.50"(63mm)	22x3.5x10	6	
	2.75"(70mm)	22x3.5x10	7	
	3"(76mm)	22x3.5x10	8	
	3.25"(82mm)	22x3.5x10	9	
	3.50"(89mm)	22x3.5x10	10	
	4"(102mm)	22x3.5x10	10	
	4.25"(108mm)	22x3.5x10	11	
	4.50"(114mm)	22x3.5x10	11	
	4.75"(120mm)	24x4.0x10	11	
	5"(127mm)	24x4.0x10	11	

The above specifications are for reference, other specifications can be ordered by customers.

Quality: Normal, Good quality, Premium.
