

Product Description

High welding intensity to mitigate the impact and avoid segments breaking off when cutting.

We can manufacture all kinds of specifications upon consumer's request.

Professional cutting marble segment for single blade can achieve fast and easy cutting, no chips, long lifespan, [Diamond Segments For Cutting Marble](#), stable performance and high cutting efficiency.

Feature:

1. Mainly for the Iranian market
2. Professional Marble Segment for Cutting.
2. [Diamond Segment Cutting Supplier China](#), good cutting result: smooth cutting, flat surface and even size.
4. Different kinds of shape direct at the best performance to meet the different cutting requirements.

Product Specification:

1200MM Diamond Saw Blade Segment For Cutting Marble Block

High Frequency Welding For 1600mm Saw Blade

Steel Saw Blade Thickness: 6.5-7.2mm

The cutter head has a cutting edge. When welding, it shall be welded according to the rotation direction of the saw blade.

Application:

Diamond saw blade for marble slab block cutting.

Diamond segment for single blade, for single arm machine, bridge cutting machine.

Tower Saw Blade

Multi Saw Blade

Single Saw Blade

FAQ

1. Do you offer free samples?

Normally we do not offer free samples, but we guaranty our product's quality.

2. How can we be your agent in our country?

Please inform us your detailed company, we will discuss and propose helpful suggestion for you, and to find the best solution for you.

3. If we need technical support, can you offer us?

Yes, we have an experienced team, offering our customers additional benefits with specific advice, by our product management staff, engineers and technicians.
