

Product Description

These [China Sintered Tuck Point Blade Factory](#) are mainly used for making grooves on the surface of green concrete, masonry, joints of brick or block and other construction materials, and repairing grout, cleaning and routing cement mortar joints.

Sintered Tuck Point Blades are used for tuck pointing or repointing, which is the removal of mortar joints and the preparation of masonry surfaces including concrete, block, bricks, pavers and stone.

Diamond tuck point grinding blades come brazed, polished, sintered, cooling holes, sandwich core design, key hole gullet, v-segment and wide u-gullet.

Feature:

1. Universal dry or wet cutting tuck point blades.
2. Higher diamond concentration than standard grade for fast cutting and long service life.
3. Fast and smooth cutting, high performance.
4. High efficiency and universality
5. Long lifespan and reasonable price
6. Normal and silent blade are available
7. Marking grooves on the surface of the construction materials, and routing cement mortar joints. Smooth and fast cutting

Product Specification:

The Followings Are The Normal Specifications Of Our [Sintered Tuck Point Blade Supplier](#):

Product Name	Diameter	Segment Width	Arbor	Segment Height	Segment Number	Applications
--------------	----------	---------------	-------	----------------	----------------	--------------

Sintered Tuck Poin Blade	Inches	MM	Inches	MM	MM	MM	PCS	Concrete Masonry Ceramic
	4"	105	0.250"	6.4	16/20 22.2 25.4/50	8	8	
	4.5"	115	0.250"	6.4		8	8	
	5"	127	0.250"	6.4		8	10	
	6"	152	0.250"	6.4		8	12	
	7"	178	0.250"	6.4		8	14	
	8"	203	0.250"	6.4		8	16	
	9"	229	0.250"	6.4		8	18	

The above specifications are for reference, other specifications can be ordered by customers.

FAQ

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing.

It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including different color, grit etc. We also can mark your own logo and brand on the pad. Any new products you want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.

Logistics:

Sample order ship by DHL, UPS, FedEx, TNT, EMS etc

For mass order delivery, can be optional with terms of Exwork, FOB, CNF, CIF by air or by sea based on the buyer's forwarder or ours
