

Introduction:

Slotted Flat End Straight Engraving Bits For Stone hotsell CNC Tools Vacuum Brazed Diamond Carving Bits

Vacuum Brazed Diamond Engraving Bits 5-8times working life than electroplated diamond bits. High efficiency. Used on CNC engraving machine, working at high rotating speed. Different models for end milling, carving, line engraving, polishing, slotting, hollow-cutting, 3D embossment, cutting, flat processing ect.

Vacuum Brazed Diamond Carving bits with a large variety of specifications are extensively used for sculpturing,dressing,precision grinding and internal grinding carbide, ceramic, glass, precious stone, alloy and many other abrasive material.all sizes, shapes, assortments are upon your specific request.kit assortments of mounted points & burrs are flexible.

Features:

1. Special shapes and sizes available upon request.;
2. Diamond bits designed for edge details grinding and engraving application;
3. For use in soft stones and granites, water use suggested in granite and hard stones;
4. Vacuum Brazed Diamond Bits for bowl-hole mounting systems available in our standard product list.

Advantage:

1. Segment is very sharpening;
2. Efficiency and operator safety;
3. Competitive price and superior quality;
4. Long engraving life and stable performance;
5. High quality: It must pass our QC testing for 3times.

Tips:

1. Wet use, also can be dry used; but suggest wet use better;
2. Water or other cooling agent is recommended for longer life of the bit;
3. Life longer than conventional diamond coated rotary points, saving time and money;
4. A new generation of tools, innovative Diamond BRAZED Profile Wheel Lasts up to double.

Specification:

Slotted Flat End Straight Vacuum Brazed Engraving Bits For Stone,Vacuum Brazed Diamond Carving Bit

Total length	Workable length	Shank
120MM	20MM	10MM
76MM	12MM	10MM
90MM	20MM	6MM
90MM	20MM	8MM
60MM	10MM	8MM
60MM	12MM	12MM

The above specifications are for reference, other specifications can be ordered by customers.
