

Product Description

Star type rotary bush hammer roller is suitable for surface fabricating, making bush hammered effect for stone products and concrete floor.

The processed surface is real and natural, which is a high-quality surface treatment for safety and anti-skid.

Compared with other wholesales bush hammer rollers, it is convenient to replace the roller and improves the work efficiency.

China bush hammer head can apply litchi surface to the edges of the stone. Can complete the grinding effect that cannot be achieved by other fully automatic machines.

Feature:

1. Alloy carbide bush hammer roller, high efficiency, long lifespan, reasonable price.
2. **Rotary bush hammer roller for manufacturer** can grinding sand blasting surface and litchi surface.
3. Bush Hammers have been around a long time and have proven the easiest way to texturize stone, Concrete & asphalt.
4. The grinding direction of the star type diamond bush hammer on the wheel can be adjusted according to the effect of the litchi surface that the customer wants to polish.

Product Specification:

The Following Are Normal Specifications **Star Type Rotary Bush Hammer Roller** :

Outer Diameter	Wheel Width	Segment No.	Shape	Machine
33mm	6.5mm	2x10 Teeth	Star	Angle Grinder, Floor Grinder

The above specifications is only for reference, other specifications may be available as per customer's demand.

FAQ

1. What can Bush Hammers do?

Surface Prep for coatings.

Quickly expose large aggregate.

Remove hard coatings and overlays.

2. Will the teeth of the bush hammer roller fall off ?

of course not, We use high-strength flux to weld the carbide tip to the grinding wheel. The grinding wheel is sturdy and durable, with a long life, and the tip is not easy to fall off.

3. Do you provide many kinds of Bush hammer tool?

We provide 30s, 45s, 60s and other various bush hammer wheels, as well as multi-brand floor lychee surface grinding blocks and grinding discs.
