

Introduction:

PC Sintered Diamond Drilling Bit D5*125L*10B for portable and desktop drilling, high-speed and low-speed drill drill points. Widely used in granite, marble, ceramics and other materials processing drilling products sharp, durable, broken small, the majority of users. Mainly used for tilt angle drilling, commonly used to back bolt drilling.

Feature:

- 1. Applicable to a variety of handheld drill machine or CNC machine tools.
- 2. Using high-quality diamonds and high-speed steel pressing and sintering, can withstand high speed drilling.
- 3. The diamond protrusion uniform, sharp, high drilling efficiency.
- 4. Each center has a water hole drill is conducive to chip and cooling, and thus has a long service life.
- 5. Matrix after heat treatment, the strength of stronger, more durable than conventional segment.

specification:

The following are general specifications of **PC Sintered Diamond Drilling Bit D5*125L*10B**:

product number	diameter(mm)	Segment Hight	usage	Drill pipe length	Welding	Fittings
BW-DDB-S08	5/6/8/10	10mm	Wet use	100mm-125mm	Silver solder	10mm

The specification just a reference for customers. Other could be ordered by customers.
