

Product Description:

Brief Introduction:

Three-dimensional diamond powder mixing mixer is mainly suitable for mixing evenly diamond products, metallurgy, chemical industry, powder or small particles stirred, the three-dimensional space, six degrees of freedom, acceleration, deceleration, organic variety of motion jitter and rock combined, mixing time arbitrarily set, mixing speed is adjustable and mixing uniformity, high efficiency, reduce oxidation powder.

Features:

1* Three-dimensional mixing motion design, no dead angle, good performance and high efficiency, well distributed rate of the material is 99.5%.

2* Designed to reduce the power consumption by the balance of 2 barrels.

3* Loading percentage is up to 85%.

Precautions:

Please lock the nut during operation to prevent accidents.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of three-dimensional diamond powder mixing mixer:

power supply	380V, 50 / 60Hz, 3 phases
Motor Power	1.5 KW
Volume	18-20L / barrel
Tank mixed form	stainless steel
Output speed	28 r / min
Mixing time	Adjustable (1 second to 100 hours)
Dimensions	850mm * 850mm * 1100mm
Weight	250Kg

If you need other specifications of the machine, can be customized according to demand.

Packing & Shipping:

3D powder mixer packing in the wooden.

We can also pack the 3D powder mixer according to your requirements.

Special specifications need to be negotiated for delivery times.
