

Introduction:

Electroplating drill bits for glass are designed for drilling glass,marble,tile,ceramic,pottery and many other non-metal crisp materials.These Electroplating drill bits for glass are mainly used on portable electric driller and bench drilling machines,appear a high efficiency and smooth cutting.

Features:

- 1.Electroplating drill bit for glass has stable performance
- 2.High drilling efficiency.
- 3.Smooth cutting without side damage.
- 4.Can be widely used in stone processing,glass process

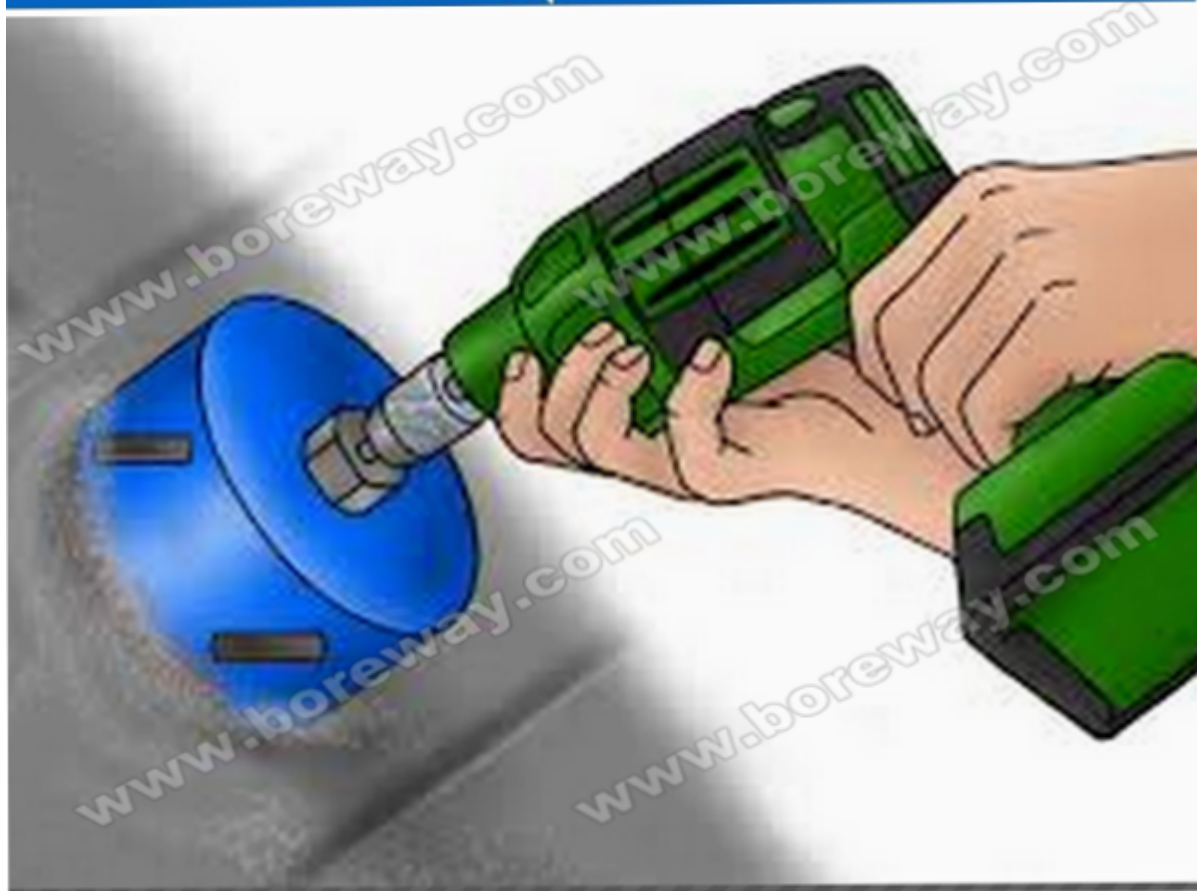

Specifications:

The followings are the normal specifications of Electroplating drill bits for glass:

Diameter	Length	Connection	Application
D10			
D20			
D30			
D40			
D50	50-60mm	Clamp lever	Glass marble tile ceramic pottery
D60			
D70			
D80			
D90			
D100			

Above specification just a reference for customers.Other specifications can be ordered by customers.
