

Statement:

We only use high-quality diamond powder, never use the diamond powder of waste diamond segments.

High quality diamond powder

Waste diamond segments

Products Description:

Brief introduction:

Diamond bits are made of high-quality diamond powder and other metal powder according to a certain proportion of the sintering, we have different materials such as granite marble concrete ceramics, etc., to study the different knife head formulations used to meet your different cutting needs

Features:

All o four products have been tested before access to market.

Other specification scan be customized according to requirements.

Details:

Specification of diamond segments:

Blade diameter/mm	Segment length/mm	Segment thickness/mm	Segment hight/mm	Segment number
350	40	3.2	10,12,15	24
400	40	3.6	10,12,15	28
450	40	3.6	10,12,15	32
500	40	4	10,12,15	36
600	40	4.6	10,12,15	36/42
800	40	5.5	10,12,15	46
800	24	7.5/6.5	12	66
1000	24	7.6/7.0/6.4	12,20	70
1200	24	7.8/7.3/6.8	12,20	80
1600	24	9.4/8.9/8.4	12,20	108
1800	24	10/9.4/8.8	12,20	120
2000	24	11.1/10.5	12	128
2000	24	10.6/9.6	15	128
2000	24	10.6/10/9.4	20	128
2200	24	10	15	132
2500	24	12,11	15	140
2700	24	12,11	20	140
