

## Introduction:

Dust absorption grinding machine 380 is used to epoxy floor grinding, old floor renovating, dust-free grinding construction.

## Feature:

1. Adopting the imported fanner from Taiwan, the absorption power is higher, to keep dust-free construction environment;
2. Changing the tool on the bottom, it can grinding or scrubbing, to realize one machine with more usage;
3. With Siemens Motor, the machine's dynamic is durable for a long time;
4. With wonderful side working function.

## Specification:

The normal specification of dust absorption grinding machine 380:

| Model | Power output | voltage | Working width | Dust absorption rate | Dust Tank volume | weight | Standard accessories  | Optional accessories |
|-------|--------------|---------|---------------|----------------------|------------------|--------|---|----------------------|
| Unit  | KW           | V       | MM            | $\frac{2}{M}$ /min   | L                | KG     | Diamond grinding disc,multifunctional disc, waterproof plug, sand paper | Diamond bit          |
| 380   | 3            | 380     | 380           | 3                    | 17               | 130    |   |                      |

The above specification just a reference for customers.Other specification can be ordered by customers.
