

Introduction:

Metal Bond Grinding Pad For Concrete Floor Stone Plastic Based Abrasive Grinding Disc are designed to remove coatings on concrete floor to prepare the floor for polishing. Plastic based filling foam and Velcro backs, excellent toughness and impact resistance. The segment is hot-pressed and professionally welded on the plate to make sure the density of segment is reasonable and help to extend the life time of the disc.

Feature:

- *High-quality metal bonds are wrapped in high-strength plastic,
- *Much lighter than traditional metal diamond pad
- *Aggressive, Excellent performance in the complex and changing processing environment.

Specification:

Metal Bond Grinding Pad For Concrete Floor Stone Plastic Based Aggressive Abrasive Grinding Disc

Diameter	Grit	Holder	Total thickness.	Workable Thickness
3"(80mm)	30# 50# 100# 200#	Velcro Back	16mm	6mm
4"(100mm)	30# 50# 100# 200#	Velcro Back	16mm	6mm
