

**Introduction:**

Resin filled diamond grinding disc is mainly used for fine grinding of marble, granite and other stone plate surface, polishing, high efficiency, good wear resistance, long life, suitable for automatic and hand mill (single head mill).

**Features:**

1. Resin filled diamond grinding disc for fine grinding of marble, granite, artificial stone plate, polishing
2. The processing of high efficiency, long life
3. Suitable for automatic and hand mill

**specification:**

The following are general specifications of our Resin filled diamond grinding disc:

Model	Diameter	Grit	back	Connecting material
BW-DPW-03-01	100mm (4 ")	500 #, 800 #, 1500 #, 3000 #	Buttons or With plasticScrew holes	Resin Bond
BW-DPW-03-02	125mm (5 ")			
BW-DPW-03-03	150mm (6 ")			
BW-DPW-03-04	180mm (7 ")			
BW-DPW-03-05	200mm (8 ")			
BW-DPW-03-06	250mm (10 ")
