

Introduction:

The 3 Step diamond resin polishing discs are ideal for wet polishing granite and engineered stone. Customers that have used this system have been impressed by the very good quality of finish quickly achieved, particularly when used wet and with only three stages of 100mm diameter vlcro backed discs. The 3 Step has been specifically developed to reduce the number of stages required to achieve a good finish while saving time and money.

Advantages:

- 1.3-step pads can reduce the chance of discoloration.
- 2.Can be used to: stone surfaces, also works great on granite
- 3.3-step Pads are produced with a special lighter colored resin and diamond matrix for polishing light color stone surfaces.

Specification:

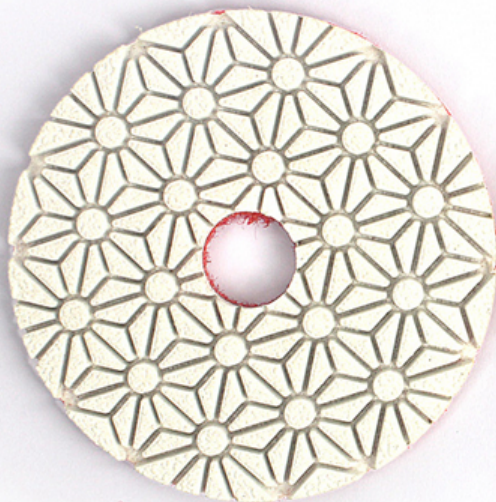

Three Step Polishing Pads Abrasive tool Wet Use For Polishing Granite Engineered Stone

Diameter	Thickness		Quality Class Wet or Dry	Grit No.	Holder
	Hand Use	Floor Use			
80mm(3")	2.2-3.0mm	3-10mm	Premium	1,2,3	Velcro or Rubber
100mm(4")			Standard Economical
